

HEAVY VEHICLE SAFETY INITIATIVE

VEHICLE SPECIFICATION ENVELOPES

ADVANTIA
TRANSPORT CONSULTING

What's the project?

- Providing a framework for transitioning certain combinations out of PBS
- Developing a set of dimensions/conditions that may provide the basis for a set of notices similar to the Truck and 4-axle dog notice.

What are we doing?

- Development of Vehicle Specification Envelopes for 3 common PBS vehicles.
 - 6x4 truck and 5-axle dog trailer (Bulk tippers)
 - 6x4 truck and 6-axle dog trailer (Bulk tippers)
 - 6x4 prime mover and 3-axle semi-trailer (General freight)
- Vehicles conforming to these envelopes would meet the safety standards of the targeted PBS levels.

How you can help.

- We need Feedback!
- Online Feedback form coming soon to Advantia's website
- Industry visits
